The buzz: “Imagine knowing whether your DNA encodes a risk for migraines even before a headache strikes” (Yale Journal of Biology and Medicine). The Life Sciences industry is experiencing unparalleled market and business changes due to breakthrough technologies like Connected Health, Personalized Medicine, Health Wearables, AI, IoT, Machine Learning, Augmented Reality. Prognosis for companies that don’t innovate and adapt soon: poor business health. The experts speak. Joe Miles, SAP: “If your actions inspire others to dream more, do more and become more, you are a leader” (John Q. Adams). Rob
