BUSINESS

Global Business
Wednesday at 9 AM Pacific
November 21st 2018: Seeking Truth from Facts

Listen to Dr Kristen Sosulski about the data visualization, an essential skill required in today's information-rich world. Importance of linear process to develop data visualization literacy and exploratory, inquiry-based approaches to visualization issues and developing expertise to use data. It is so important for practitioners in almost every field to have a coherent way to share findings from research, big data, learning analytics, and more.
