**July 17th 2019: How to Understand and
Appreciate Classical Music**

As music impacts our senses (physical, emotional and mental), Cordelia Odendaal looks to make students aware of the special effect it has on our spiritual growth and evolution. By relating other arts (such as painting, sculpture, architecture and poetry) to music, she presents a pantheistic all-embracing oneness of beauty. Her book on "How to Understand and Appreciate Classical Music" covers history, biographies of composers and the time periods in which they impacted musical life and thought.
