**September 10th 2019: Veteran Treatment Court  
- What is it?**

Most veterans are strengthened by their military service, but the combat experience has unfortunately left a growing number of veterans with issue such as PTSD and traumatic brain injury. • One in five veterans has symptoms of a mental health disorder or cognitive impairment. • One in six veterans who served in Operation Enduring Freedom and Operation Iraqi Freedom suffer from a substance use issue. Research continues to draw a link between substance use and combat-related mental illness. • Left untreated, mental health disorders common among veterans can directly lead to involvement in
