Dr. Gary Bell's Absurd Psychology
Tuesday at 11 AM Pacific
October 1st 2019: Shaped by Attachment

The emotional bond that typically forms between infant and caregiver is the means by which the helpless infant gets primary needs met. It then becomes an engine of subsequent social, emotional, and cognitive development. The attachment experience can have an influence on the ability to form additional stable relationships. We will explore all that makes attachment and how what we emotionally attach to shapes who we are. Tune in and learn how attachment works!
