

Turning Hard Times into Good Times

with Jay Taylor

Turning Hard Times into Good Times
Tuesday at 12 Noon Pacific
April 13th 2021: Living & Investing in a
Dystopian Digital Currency World

David McAlvany, Michael Oliver & Quinton Hennigh return. The handwriting is on the wall now for EVERYONE to see. Freedom to spend your money as you wish without government permission is about to end. That's because a mismanaged global monetary system now requires not only low interest rates but negative interest rates to hold the system together. To be able to take money away from your accounts, you will be forced into a digital only monetary system. Aside from our loss of personal liberty and privacy, might there be ways to minimize the theft of our wealth by governments and central banks? T

J. Michael Oliver

J. Michael Oliver entered the financial services industry in 1975 on the Futures side, joining E.F. Huttons International Commodity Division, NYC. He studied under David Johnson, head of Huttons Commodity Division and Chairman of the COMEX. In the 1980s Oliver began to develop his own momentumbased method of technical analysis. In 1987 Oliver, along with his futures client accounts Oliver had trading POA technically anticipated and captured the Crash. Oliver began to realize that his emergent momentumstructuralbased tools should be further developed into a full analytic methodology. In 1992 he was asked by the Financial VP and head of Wachovia Banks Trust Department to provide soft dollar res
