

Turning Hard Times into Good Times

with Jay Taylor

Turning Hard Times into Good Times
Tuesday at 12 Noon Pacific
June 22nd 2021: Outlook for U.S. Stocks?

Dr. Peter Treadway, Michael Oliver and Corwin Coe return as guests. On May 5, Peter opined that “The outlook for U.S. stocks has turned negative.” That article focused on the costs of green energy being imposed on Americans by far left politicians. But Peter who is focused on global markets will most certainly have some views on the Asian markets, which he is very much involved with from his part time perch in Hong Kong. Specifically, I want to ask him about his views on the worsening of Chinese-US relations now that a more antagonistic Trump administration is no longer in charge. Michael has

J. Michael Oliver

J. Michael Oliver entered the financial services industry in 1975 on the Futures side, joining E.F. Huttons International Commodity Division, NYC. He studied under David Johnson, head of Huttons Commodity Division and Chairman of the COMEX. In the 1980s Oliver began to develop his own momentumbased method of technical analysis. In 1987 Oliver, along with his futures client accounts Oliver had trading POA technically anticipated and captured the Crash. Oliver began to realize that his emergent momentumstructuralbased tools should be further developed into a full analytic methodology. In 1992 he was asked by the Financial VP and head of Wachovia Banks Trust Department to provide soft dollar res
