February 1st 2022: AI and Data Governance – Friends or Foes?

The Buzz 1: Data governance the organizational framework...to understand where your data originated, how it was handled, and the goals your AI platform and machine learning models set out to achieve. "[https://www.datarobot.com/wiki/data-governance/] The Buzz 2: "Companies have tons and tons of data, but [success] isn't about data collection, it's about data management and insight." [Prashanth Southekal at the Data for Business Performance Institute] The Buzz 3: "You can have all of the fancy tools, but if [your] data quality is not good, you're nowhere." [Veda Bawo at Raymond James]
