

Data Security and Privacy with the Privacy Professor

New shows the first Saturday of each month at 8 AM Pacific

February 5th 2022: A Synthetic Data Deep Dive: Privacy Protector, Foe or Other?

Synthetic data has increasingly been in the news in recent years. It is being used for many purposes, such as training artificial intelligence (AI) models, and for more thoroughly testing software. It is also being described as a new type of privacy enhancing technology (PET). In what other ways is synthetic data being used? Do data protection regulations and other laws and legal requirements apply to synthetic data? E.g. do the associated individuals need to provide consent for organizations to use synthetic data where pieces of their personal data was incorporated? How do the Data Protec

Featured Guest

Dr. Khaled El Emam

Dr. Khaled El Emam is the Senior Vice-President and General Manager of Replica Analytics, an Aetion company. He is a Canada Research Chair in Medical AI and a Professor in the School of Epidemiology and Public Health at the University of Ottawa. He is also a senior scientist at the Children's Hospital of Eastern Ontario (CHEO) Research Institute and Director of the multi-disciplinary Electronic Health Information Laboratory (<http://www.ehealthinformation.ca/>), conducting applied research on data synthesis, and the identifiability of health information and how to measure it. Khaled founded or co-founded several companies involved with data manage
