October 22nd 2014: Do You Know GMO?

One could argue that we are in the midst of a food crisis. Much of the conventional food we purchase each day is made with GMO (Genetically Modified Organism) ingredients. In fact, it's estimated that approximately 80% - 90% of processed food is genetically modified. Tune in as I interview greater Detroit area executive director for No GMO 4 Michigan, Zachary Schafer, as he shares information about all things GMO, including why it was introduced into our food system in the mid 1990's. He will also discuss potential health risks associated with GMOs, how we can avoid GMOs, high-risk GMO food

Zachary Schafer

Zachary Schafer, greater Detroit area executive director for No GMO 4 Michigan, is at the forefront of the movement to raise awareness of genetically modified organisms (GMOs) in food. Throughout his two years as executive director, he has helped grow the metro Detroit membership to almost 800, the most in the state.
