**October 10th 2016: Encore: Weeding Out Fact
From Fiction: The Effects of Marijuana and
Technology on Our Children's Brain
Development**

What would you do if the research showed a relationship between eating broccoli and negative changes in your child's brain development? You wouldn't feed them broccoli, right! What if the same was true for technology and marijuana use? Please join us for a conversation about the effects of technology and marijuana on our children's developing brains. You will learn facts that will help you parent, mentor, educate and be a role model to the children in your life. Here are a few questions that will be answered: • How potent is today's marijuana compared to the 1970's and why does it matter t
