The Consumer Electronic Show (CES) in Las Vegas has come and gone, but not without foreshadowing some of the new pet tech trends and devices that will appear later on this year. CES provided an array of new pet tech, from stylish GPS and health monitoring collars to food dispensers that keep your chubby tabby on a diet. Today's show will be reviewing the new pet tech revealed at CES such as the Whistle 3 and Catspad.

**Featured Guests**

**Julia Waneka**  
Julia Waneka - rhymes with Hannukah. Part storyteller, part matchmaker, I help connect the dots between corporate narrative and real-life.

[Read more](#)

**Amy Tokic**  
Amy Tokic, Editor of PetGuide.com, is a passionate animal lover and proud pet parent of Oscar, a Shih Tzu/Chihuahua cross. Her love of animals began in kindergarten, when she brought her stuffed dog Snoopy into class with her every day.

**Kristen Levine**  
Kristen Levine believes we need pets just as much as they need us. She shares stories, advice, and research to show how pets make our lives happier and healthier. As a pet living expert, whether reviewing a great new product, or telling an inspirational "tail" – Kristen knows pet parents seek content and connections with people who love pets as much as they do.
