Brent Cook, John Kaiser and Michael Oliver return. Novo Resources, a sponsor to this show, has seen its shares rise from C\$0.83 on July 10 to C\$8.51 on Oct. 3. Visual reports and early sampling have revealed a rich field of near surface gold nuggets in northwestern Australia that reportedly appears over an 8 km distance and may extend many kilometers down dip. In quest of the next Witwatersrand gold deposit from which over 35% of the world's gold has been mined, Novo's Dr. Hennigh's geological theories led him to this discovery. But has Hennigh actually discovered Witwatersrand 2.0? If so, is

John Kaiser

John Kaiser is an independent analyst based in the San Francisco area who has covered the junior resource sector since 1983. After a decade working as a research director in Vancouver he left the brokerage industry in 1994 to launch Kaiser Research Online and create the "rational speculation model" as a tool to evaluate the speculative value of exploration projects.
