February 27th 2018: Machine Learning and Finance: Process Automation to the Next Level

The buzz: "Finance professionals are spending just 17% of their time on strategic activities, with a lack of automation serving as the culprit for much of this inefficiency" (Henner Schliebs). As the role of Finance changes to strategic advisor to the business, it's critical to increase day-to-day process efficiency. How? Re-imagine Finance with Intelligent ERP that uses machine learning, in-memory technology and simplified data structures. The experts speak. Nilly Essaides, The Hackett Group: "Change will not come if we wait for some other person or some other time. We are the ones we've been
