Rupert Read and Alison Green talk with Rob about a new movement of rabble-rousers speaking truth to power, out of the UK, calling all to address Climate Change, to action to avert the climate crisis affecting us all, and to put off the Anthropocene extinction. The Extinction Rebellion is an international social movement that aims to drive radical change, through nonviolent resistance, in order to avert climate breakdown and minimize the risk of human extinction and ecological collapse. We'll call on governments to tell the truth about the climate and wider ecological emergency, reverse incons
