Data Security and Privacy with the Privacy Professor

New shows the first Saturday of each month at 8 AM Pacific

February 26th 2019: Is AI a Friend or Foe to Information Security and Privacy?

There are unlimited possibilities for using artificial intelligence (AI), for the benefit of a few, to benefiting large populations. Many in the information security sector are hopeful that AI can strengthen cybersecurity efforts. But, can they also be used to exploit cybersecurity vulnerabilities? And what about privacy? Will AI be used more to invade privacy, or to protect privacy? Considering these issues, and certainly there are many more to consider, just how accurate are all those AI tools being offered? How are AI algorithms validated as being dependable and/or accurate? Are they bi

[Read more](#)
