April 09th 2019: What is essential to know about STI's?

STI (Sexually Transmitted Infections) have been around a long time - They are the ultimate communicable passing of infections via sexual touch and exposure. STI's have been increasing, so we still need a better understanding of how to be safe & responsible as a sexual partner for our sexual partners. What's new in treatments, tests and preventions? Dissolving the social stigma is vital so we can feel free to discuss and disclose. Why being ashamed or embarrassed will only serve to harm you and your sexual partners. And, What is Safer Sex VS Safe Sex?
