**August 2nd 2019: CHPS New Standards Create Healthy, Climate-resilient Schools**

The Collaborative for High Performance Schools (CHPS) released its highly-anticipated K-12 school-focused CHPS 2019 Core Criteria 3.0. The third edition builds upon the CHPS 2014 Core Criteria. It incorporates recent developments in construction and building materials technology and adds additional credits addressing lowering school buildings' carbon footprint through the reduction of greenhouse gas emissions and promoting resiliency to climate change. The national CHPS Core Criteria, and its state and regional versions, are the first green building rating programs developed especially for sch

**Featured Guests**

**Elisabeth Krautscheid**

As Managing Director, Elisabeth is deeply committed to CHPS' priorities of healthy learning environments, wise use of resources, and minimal waste. She is also an energetic proponent of a strong operational foundation for schools. She is a Certified Energy Manager with more than 25 years of professional experience in environmental policy implementation, program management, and community activism. She specializes in environmental justice and healthy communities, skills she honed while working with the Massachusetts Department of Community Development, where she spearheaded the adoption of a green building policy for housing development and was part of an inter-agency team focused on sustainab
