### Data Security and Privacy with the Privacy Professor

New shows the first Saturday of each month at 8 AM Pacific

February 01st 2020: How Biased and Malicious AI Can Do Harm

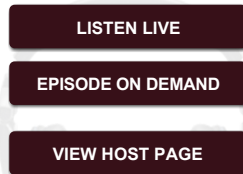

Listen in to my chat with artificial intelligence expert Davi Ottenheimer about not only the potential benefits of AI, but also the risks to information security, privacy and safety when flawed, biased and maliciously-engineered AI is used. Also hear the boundaries Davi recommends for preventing bad AI. Some of the questions covered include: • What are some examples of tragedies that possibly could have been prevented with AI? • In what ways are AI controlled robots shifting power in our society? • What kind of boundaries can be used with AI to support strengthening information security and
