**July 11th 2020: Voting by Mail Security: Busting Myths and Explaining Facts**

In the midst of a deadly pandemic mail-in voting would be the safest way to vote. However, many warn that voting by mail will lead to wide-spread fraud and lost votes. Is this true, or are they baseless claims? What is true, and what are pure conspiracy theories and lies? Amber McReynolds, one of the country's leading experts on election administration, policy & security, discusses the risks of voting by mail along with the benefits, security, and myths. Some topics covered: • How are requests for mail-in ballots confirmed to be from the actual voter? • How much fraud has actually occurred

**Amber McReynolds**

Amber McReynolds is one of the country's leading experts on election administration and policy, and co-author of the book "When Women Vote". Amber is the CEO for the National Vote At Home Institute and Coalition and is the former Director of Elections for Denver, Colorado. During her time there, she transformed the elections division into a national and international award-winning office. She has proven that designing pro-voter policies, voter-centric processes, and implementing technical innovations will improve representation for all voters. Amber serves on the National Election Task Force on Election Crises, as an advisory board member for the Massachusetts Institute of Technology (MIT) E
