May 12th 2021: The Future of Self-Publishing: A Real Page-Turner

The buzz: "Ten years ago, e-books made up less than 1 percent of the trade book market, yet they now make up 40 to 50 percent of units sold...In genres like fantasy, romance, and science fiction, traditional publishers have lost their former iron grip on the industry...Successful major authors are even choosing to self-publish...As smartphone ownership expands internationally, so will the market for e-books....Books could take advantage of the capabilities of digital devices by offering color, interactivity, connectivity, share ability, and new features we can't even imagine yet." <https://lizzardink.c>
