June 8th 2021: Will Basel III Lead to Honest Gold Price Discovery?

Alasdair Macleod, Michael Oliver and Dr. Quinton Hennigh return. Bullion banks and central banks have controlled the rise in gold prices through the application of newly-printed money to create fake supply and allow nearly infinite leverage in the gold market, relative to unencumbered physical supply. With banks front running profits through paper market gold price manipulation, why would the Bank for International Settlement (the bankers' banker) lay down regulations under Basel III that will cause those profitable gold price suppression activities to cease? We will explore the underlying eco

J. Michael Oliver

J. Michael Oliver entered the financial services industry in 1975 on the Futures side, joining E.F. Huttons International Commodity Division, NYC. He studied under David Johnson, head of Huttons Commodity Division and Chairman of the COMEX. In the 1980s Oliver began to develop his own momentum-based method of technical analysis. In 1987 Oliver, along with his futures client accounts Oliver had trading POA technically anticipated and captured the Crash. Oliver began to realize that his emergent momentum-structural-based tools should be further developed into a full analytic methodology. In 1992 he was asked by the Financial VP and head of Wachovia Banks Trust Department to provide soft dollar res
