We will be discussing the future of aviation through the use of drones. Our special guest, Kal, has been flying and winning R/C (radio controlled) airplane competitions for several years before directing his attention to flying and racing drones. He will talk about the importance of using drones in our future as well his accomplishments and how he worked his way up. Join us for some fun as we celebrate National Aviation Day!

Featured Guest

Kal Reifsnnyder

Kal is 17 years old from Lake Placid, Florida. He's been involved in aviation his whole life and has been flying radio control airplanes for over 13 years. Kal started drone racing about two years ago. He is currently F3A Junior world champion, Asia Pacific Freestyle Champion (took place in Australia) and has been to 9 different countries to compete and fly all over the world, including numerous national competitions for drone racing and airplanes. Currently, he is racing for Team USA (Known as Quad force 1) in the Drone Champions League (DCL) He has 8 different sponsors that supply the gear he need to compete at the top level.
