October 5th 2021: STUPID: Our New Standard of Intelligence

While intelligence is one of the most talked about subjects in psychology, there is no standard definition of what exactly constitutes intelligence. Some researchers have suggested that intelligence is a single, general ability. Others believe that intelligence encompasses a range of aptitudes, skills, and talents. Intelligence has been a controversial topic throughout psychology's history. Despite the substantial interest in the subject, there is still considerable disagreement about what components makeup intelligence. In addition to questions of exactly how to define intelligence, the debat
