June 13th 2007: 'The Future of Food' with Producer/Director
Deborah Koons Garcia

This very timely documentary offers an in-depth investigation into the disturbing truth behind the unlabeled, patented, genetically engineered foods that have quietly filled U.S. grocery store shelves for the past decade. It distills the complex technology and key regulatory, legal, ethical, environmental and consumer issues surrounding the changes happening today - genetically engineered foods, patenting, and the corporatization of food. Within its somber context, the film empowers consumers to realize the consequences of their food choices on our future in addition to being a key tool in the
