Cancer Concepts and Complements Archives Available

This show will help you gain a deeper understanding of the published research on the integration of natural medicines into conventional cancer care. We will discuss how various laboratory tests can analyze and identify weaknesses in one's immune system and how this information can be used to construct a natural treatment plan. Dr. Belanger will also discuss how various laboratory tests can analyze factors that stimulate the growth of cancer and how natural medicine may overcome these growth factors. Other episodes will review the mechanisms of how cancer becomes resistant to chemotherapy and r
