

Data Security and Privacy with the Privacy Professor
New shows the first Saturday of each month at 8 AM Pacific

There are more information security and privacy threats than ever before. As more technologies emerge, more surveillance tactics are used, and more artificial intelligence systems are deployed, cybersecurity and privacy risks grow exponentially. Rebecca has spent her entire career working to improve information security and privacy protections, by not only raising awareness of the issues within businesses and other types of organizations, but also by raising the awareness of these risks in the public and helping them to understand how to better protect their own personal data, allowing them to
