February 10th 2010: Spontaneous Evolution

Do you really think that what we believe makes a difference? Well this week we are going to be talking to one of the world's scientific authorities, one who helps us bridge the gaps between science and spirit. Internationally recognized for his research on the energy that works below the level of our genes, Bruce Lipton began his career as a cell biologist focusing on molecular mechanisms. Then, with Dr. Ed Schultz, he worked with experimental tissue transplantation techniques later employed in human genetic engineering. But in 1982 he began examining the principles of quantum physics. His di

Featured Guest

Bruce H. Lipton, PhD

Bruce H. Lipton, PhD is an internationally recognized leader in bridging science and spirit. Stem cell biologist, bestselling author of *The Biology of Belief* and recipient of the 2009 Goi Peace Award, he has been a guest speaker on hundreds of TV and radio shows, as well as keynote presenter for national and international conferences, taking his award-winning medical school lectures to the public. He lectures to conventional and complementary medical professionals and lay audiences about leading-edge science and how it dovetails with mind-body medicine and spiritual principles. He is regarded as one of the leading voices of the new biology. His deepened understanding of cell biology highligh
