May 12th 2010: Ocean Wanderers: MA Sturgeon and Lampreys

Sturgeons and lampreys are truly ocean river dwellers. My understanding and awe of anadromous fish was forever altered by lamprey nest building behavior and what the behavior of two sturgeon told Dr Boyd Kynard last month. Many years ago, he discovered in his neighborhood the only Massachusetts tributary river of the Connecticut River watershed that is not dammed, the Fort River. We talk about an amazing fish, the lamprey, which stops feeding in Long Island Sound to travel to the Pelham Hills transporting carbon and ocean chemicals including boron to endow ecosystems far from the sea. Discov
