August 25th 2010: Do Cell Phones Cause Brain Tumors?

The FDA recently issued a Consumer Health Information bulletin with the headline, "No Evidence Linking Cell Phone Use to Risk of Brain Tumors". Watchdog doctor Dale Peterson, MD says the bulletin is dangerously flawed. We can continue to hide our heads in the sand when it comes to the dangers of cell phone use, or we can find out how to best protect ourselves from these dangers. Join me this week as we discuss the hazards of cell phone use and how mobile communications adversely affect you even if you don't own a cell phone or computer. We'll cover everything from why people under the a

Dale Peterson, MD

Dale Peterson, MD, is a cutting edge physician at the forefront of exposing iatrogenic illness. He is a past president of the Oklahoma Academy of Family Physicians and was a Chief of Staff of the Edmond Hospital. Dr. Peterson left his full-time family practice in 1999 to consult with individuals who are seeking ways to restore and maintain their health through improved nutrition and other lifestyle changes. He founded the Center to Expose Iatrogenic Medicine to give people access to credible information on supporting and maintaining their health. Dr. Peterson has an intense interest in the design of the human body and how, given proper nutrition and support, the body is able to halt the p
