September 22nd 2010: Green Slime Slithering into Casco Bay Maine? What you can do to stem the Slime.

Friends of Casco Bay (Portland Maine and north by east) BayKeeper Joe Payne and Associate Director Mary Cerullo talk with Rob about the slithering of green slime over the benthos. With increasing regularity and alarming spread green algal mats are covering clam flats and gobbling up oxygen making life difficult for ground fish and ground dwellers including lobsters. Joe tells of hypoxic, low-oxygen regions of Casco Bay where fish swim in and die. These assaults on ocean ecosystems are caused by too much nutrients, nitrogen and phosphates, flowing, washing and seeping in. Mary Cerullo descr
