

PI's Declassified!
Thursday at 9 AM Pacific
October 21st 2010: Audio and Video
Enhancement: Myths, Facts and Benefits

Tune in

Thursday at 9 AM Pacific Time
on VoiceAmerica Variety
Channel

What can be done when a video or audio recording is poor quality? What if the image is blurred? How about background noise that overrides the spoken word? What if the sound transmission obliterates vital background noise? Does it matter if the photo or the recording is from a cell phone? Is it possible to discover a cheating spouse by detecting voice stress? What are the myths concerning what enhancement can be done and what can't? Video and audio recordings are often critical pieces of evidence in a myriad of legal proceedings. Forensic examiner Doug Carner will be available to answer these q
