Awakening to Conscious Co-Creation Archives Available

February 23rd 2011: "Sun of gOd"

Does it really make sense that our 13.7 billion year-old universe waited 13.698 billion years before anything in it developed what we call 'consciousness'? And that the experience was restricted to humans? Sun of gOd is a radical re-think of our Sun, our universe and what it means to be alive. Using scientific ideas and bringing them to their logical philosophical conclusions, Gregory Sams proposes that our Sun itself is conscious, living and fully aware of its place in the universe. Furthermore, our Sun communicates with other stars, and with us, in ways which mirror our own communities and e

Gregory Sams

The story of Gregory Sams is the remarkable story of the British counter-culture since the 1960's. In 1967, with his brother Craig, he co-founded Seed restaurant, the first natural and organic eatery in the UK which was frequented by his friends John Lennon and Yoko Ono.
