August 24th 2011: **The Cholesterol Delusion**

Approximately one-half of the adult population of the United States are being told that they harbor within their bodies a silent killer. This "killer" is cholesterol. Millions are prescribed cholesterol lowering drugs making these pills the most prescribed (and most profitable) medications in the history of American medicine. They are told that these drugs will protect them from the ravages of heart disease. This is patently untrue and can be easily demonstrated by critical analysis of the data presented in the very medical studies that purport to show their benefit. The cholesterol mania tha

[Read more](#)
