Family Caregivers Unite! Archives Available

April 10th 2012: Home automation--things family caregivers should think about

Terry d'Silva is an entrepreneur, electronic engineer, inventor and businessman. Mon Ami, his latest invention, has the potential to improve the quality of life for seniors and for people with handicaps and their family caregivers, and to support Active Aging. Alan Majer founded GoodRobot.com. His current venture uses technology to help the elderly live independently in their homes by sharing information with family and caregivers. They explain why they got involved with home automation. They discuss the family caregiver guideline they are both working on, which explains things family caregiver
