AUTISM SPECTRUM RADIO

Connecting the autism community with resources and information

WITH ROB HAUPT, DR. RONIT MOLKO AND DR. BILL FREA

Autism Spectrum Radio Archives Available

September 04th 2012: What is Occupational Therapy (OT) and How Can it Benefit an Autism Program?

This week on Autism Spectrum Radio we take a close look at Occupational Therapy and discuss collaboration between service providers. Occupational therapists help people through the therapeutic use of everyday activities (occupations). Common occupational therapy interventions include helping children with disabilities to participate fully in school and social situations, helping people recovering from injury to regain skills. In this episode your host, Rob Haupt, investigates the various ways in which OT can be a beneficial component to an autism treatment program. Rob is excited to welcome

Valerie Adams

Valerie Adams joined the Autism Spectrum Therapies team in April 2011. She has over 29 years of experience as an occupational therapist, primarily working with children. Her knowledge of children and adolescents with disabilities is extensive. She is a contributing author of the book Guidelines for Occupational Therapy and Physical Therapy in California Public Schools. In 2003 she was the recipient of the Occupational Therapy Practice Award from the Occupational Therapy Association of California. In addition to being an alumnus from the University of Southern California, she has also been a clinical faculty member of the Department of Occupational Science and Occupational Therapy at USC
