October 26th 2012: The Science Behind Consciousness and Energy with Dr. William Tiller: We Humans are Much More Than We Think We Are

Another scientist sourced in my book's late December release What if There is Nothing Wrong?, Dr. William Tiller, former professor of Materials Science & department chair at Stanford University from 1964 to 1998, says that for the last 400 years an unstated assumption of "old" science is that human intention can't affect what we call physical reality. This is no longer accurate, as his pioneering work within Psychoenergetic Science shows. One of the leading scientists of the New Sciences, leaving Orthodox science behind to have more freedom to explore consciousness w/science, he says that fu

William A. Tiller

Scientist and Author and Fellow to the American Academy for the Advancement of Science, Professor Emeritus William A. Tiller, of Stanford University's Department of Materials Science, spent 34 years in academia after 9 years as an advisory physicist with the Westinghouse Research Laboratories. He has published over 250 conventional scientific papers, 3 books and several patents. In parallel, for over 30 years, he has been avocationally pursuing serious experimental and theoretical study of the field of psychoenergetics which will very likely become an integral part of "tomorrow's" physics. In this new area, he has published an additional 100 scientific papers and four seminal books. He has
