Moir's Environmental Dialogues
Thursdays at 12 Noon Pacific
November 29th 2012: Mercury Poisoning, Dental Amalgam and Safer Alternatives to Toxic Chemicals

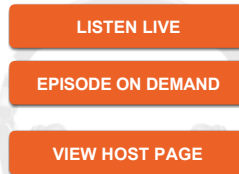

Laura Henze Russell has suffered for twenty years from mercury poisoning that vaporized from dental amalgam (silver cavity fillings) in her teeth. Laura describes regaining her health. She will present 3 articles at her town meeting in Sharon, MA. Laura's goals are 1, to learn the health impacts and health disparities associated with mercury poisoning; 2, to reduce the hidden river of toxic mercury in people; and 3, improve general health & lower health care costs. Laura is directing the Hidden River SafeAMER project at the Ocean River Institute. The goal is to pass the state Safer Alternati
