Family Caregivers Unite! Archives Available May 28th 2013: What Family Caregivers Should Know about Abuse of Information Technology

Khaled Mansour is the founder, President and CEO of www.spyders.ca, Spyders Inc, a leading Communications, Security, and Development Services firm. He shares his personal story, describes his firm's work, and explains abuse of information technology. He discusses the harm that abuse of information causes to people, the situations that put people most at risk of having their information abused, and types of people most vulnerable to the risk. He identifies the most important things that family caregivers should know about the risk of abuse of the information relating to their children and young

Featured Guest

Khaled Mansour

Khaled Mansour is founder, President and CEO of Spyders Inc., www.spyders.ca, a leading Communications, Security, and Development Services firm. He has 25 years of extensive experience with technology and management in telecommunication networks, operations, IT security, outsourcing, process re-engineering and acquisitions. Previously he was President and CEO of Cyberklix Inc, a security and network consulting company he co-founded and grew to a multi-million dollar operation. Previously he was the Vice President of Technology Services at the CGI Group, the largest independent Canadian information technology consulting firm and, prior to that, Director, Telecommu
