October 08th 2013: Ordinary People Doing Extraordinary Things: Making America Safe of Hazardous Substance and Counterfeit Materials

Today we introduce two people who have done extraordinary things to protect us from toxic and counterfeit materials. Dennis Bradley will discuss the Hazardous Substance Process Management standard that revolutionized the way industry approaches manufacturing to meet restrictions as mandated by the EU (RoHS) and some US states. He will identify early adopters of the IECQ Hazardous Substance Management Certification and describe the benefits to those companies and their customers. Phil Zulueta, SAE G19 Counterfeit Avoidance Committee Chairman, will explain why these standards and related in
