March 13th 2014: Bass Bungalows, Snook Shacks and Goliath Grouper Hotels

Lee Shepard of IntraCoastal Eco Systems talks with Rob about creating artificial reef communities to save Indian River Lagoon. Lee builds unique and custom-designed fish shelters to protect smaller fish from apex predators (Snapper, Trout, Redfish, Snook, Tarpon, and Grouper), as well as habitats for the predators. Lee's artificial habitats include oyster shells so those oyster sprats are quick to catch on and swell the structure. Recent systems feature hide-away spots for cleaner fish and LED lights in 200 colors. Alarmed by the death of many dolphins and manatees, and in particular the dea
