### The Second Stage Archives Available March 24th 2014: The Convergence of IT and Telecom

The world of business telecommunications has had to virtually transform itself with the advancements in technology over the past 20 years. And with this industry shift, the business users themselves have become more sophisticated, putting increased demands for better communication services on their providers to match. So how do small businesses take advantage of these changes and advancements? Join today's episode of The Second Stage as guest and telecommunications veteran, Tony Rehak, President of DCT Telecom Group, explains just how business owners can benefit from these many changes with

### Featured Guest

#### Anthony (Tony) Rehak

President, DCT Telecom Group, Inc. [www.4dct.com](http://www.4dct.com) Mr. Rehak is an industry veteran with 23 years of experience in the telecommunications industry. He joined DCT Telecom Group, a firm dedicated to delivering leading edge telecommunications services and support to business customers throughout the United States, as a managing partner and co-owner in 1998 and is actively involved in all aspects of day-to-day operations. In addition to his focus on revenue growth, Mr. Rehak manages carrier and vendor relationships as well as all legal, regulatory and financial aspects of the business.
