Navigating the Cancer Maze Archives Available

April 04th 2014: Cancer Immunotherapy and Trifunctional antibodies: a Ground breaking Treatment in Cancer Medicine

The two previous episodes of Navigating the Cancer Maze have generated a lot of interest. On last week's show, David Tuccaro Jr. talked about his awe-inspiring battle with recovering from leukemia. This led to a lot of questions on my email about bone marrow donation, leukemia and treatments. As well, many of you have asked about Trion Pharma's Trifunctional antibodies mentioned on the show 2 weeks ago. One of these antibodies is also used to treat leukemia while others in the Triomab® family of antibodies treat a wide range of cancers. Many new listeners to the show wrote that they had not he

Featured Guest

Dr Horst Lindhofer PhD

Following his PhD thesis at the Ludwig Maximilian's University, Horst Lindhofer moved to the Helmholtz Zentrum München, where he was initially group leader, then head of a clinical cooperation group with Munich's University Hospital. During this time, he laid the foundation for the innovative Triomab® approach and initiated the first clinical studies with trifunctional antibodies. Results were highly encouraging and gave impetus to the foundation of TRION in 1998. Since then, he has developed the company into a successful biopharmaceutical enterprise with state-of-the-art product development capabilities and in-house GMP manufacturing facilities. He has published numerous scientific articles
