July 11th 2014: *The Collaboration Economy* - with Eric Lowitt

To secure our future, we need a new economic model. No longer can capitalism ignore the environmental and social impacts of business activities. Nor can the public sector be allowed to prioritize the interests of the few at the expense of the many. Nor can we, as a society, ignore our responsibility to act in the interests of the common and future good. Leaders of the private, public, and civil sectors are building a new economic model. They've realized that inclusive and explosive growth can be achieved by creating solutions to our most vexing challenges. By working together on issues rangin
