The buzz: Change. Managing the roles and functions of Finance can be challenging, from compliance complexities and managing cash, to closing the books and building business plans, while contending with economic, regulatory and competitive forces and internal customers. Software vendors are trying to help Finance run more efficiently and cope with constant change. The experts speak. Rob Kugel, Ventana: "Never ask of money spent, where the spender thinks it went. Nobody was ever meant, to remember or invent, what he did with every cent." (Robert Frost). Renee Ford, Accenture: "The first ru

Featured Guests

Robert Kugel

Since 2003, Robert Kugel has led the Office of Finance and Business research practice at Ventana Research focusing on the intersection of information technology with the finance and accounting to line-of-business departments. He has been a technology analyst for 30+ years, with the perspective that brings, but the practice is focused firmly on what's next. His research covers the full range of finance functions (accounting, FP&A, tax, purchasing and corporate finance) along with the software that supports these functions such as ERP, performance management, tax provision, but also in price optimization and S&OP. Previously, Robert was an equity research analyst (Credit Suisse, Morgan Stanley
