Turning Hard Times into Good Times
Tuesday at 12 Noon Pacific
February 10th 2015: Adapting to and Profiting from the Collapse of the Federal Government's Empire

Michael Oliver, Brooke MacDonald and Richard Maybury return. Oliver will provide his latest technical view on key markets. MacDonald will update us on what appears to be a major copper and gold discovery in Ecuador. Maybury brings with him an objective view of history that enabled him to accurately predict the fall of the Soviet Union on a radio show with Rush Limbaugh in 1987. Limbaugh roared in laughter and implied Richard was crazy. But in 1989 the Berlin Wall fell and the Soviet Union collapsed. Now he is predicting the end of the U.S. empire within 10 years. That can either be a frighteni

J. Michael Oliver

J. Michael Oliver entered the financial services industry in 1975 on the Futures side, joining E.F. Hutton's International Commodity Division, NYC. He studied under David Johnson, head of Hutton's Commodity Division and Chairman of the COMEX. In the 1980's Oliver began to develop his own momentum-based method of technical analysis. In 1987 Oliver, along with his futures client accounts (Oliver had trading POA) technically anticipated and captured the Crash. Oliver began to realize that his emergent momentum-structural-based tools should be further developed into a full analytic methodology. In 1992 he was asked by the Financial VP and head of Wachovia Bank's Trust Department to provi

Richard J. Maybury

Richard J. Maybury is the publisher of U.S. & World Early Warning Report for Investors. He has written several entry-level, common sense books on United States economics, law, and history. His writing style is mostly in an epistolary form, usually as an uncle writing to his nephew, answering questions. Maybury had taught economics in high school. Failing to find a book with a clear explanation of economics, he wrote one himself. Some of his books include Uncle Eric Talks About Personal, Career & Financial Security—a book that is basically the foundation for his other books about the model perspective; Higher Law, Whatever Happened to Penny Candy?—a book that explains the history of the Uni
