**Internet of Things with Game Changers,  
Presented by SAP  
Thursday at 7 AM Pacific  
February 11th 2015:IoT and Mining: Revolutionizing an Industry**

The buzz: Mining. We typically use "mining" as a metaphor for digging through, analyzing, and finding value in Big Data. Now, with the mining industry undergoing an IoT revolution, we can apply the term to its namesake industry. How soon will mining companies and suppliers "mine" data flowing from sites and equipment to improve safety productivity, profitability? The experts speak. Mark Leach, Cameco: "IoT holds many as yet undiscovered uses, benefits and opportunities, but also many obstacles and dangers to be navigated, mitigated and managed. Just because we can record and measure everythin

#### Steve Fiscor

For more than 10 years now, Steve Fiscor has served as the Editor-in-Chief for the two leading mining trade journals, Engineering & Mining Journal (E&MJ) and Coal Age. In addition to his publishing projects, he also organizes niche conferences related to mining and mineral processing. During his 20 plus years in trade publishing, he has traveled the world visiting mines and processing plants. Prior to his publishing career, he served as a production foreman and project engineer for a longwall mining operation in Colorado. He holds a B.S. in Mining Engineering (1986), from the University of Missouri-Rolla, now known as the Missouri University of Science & Technology.
