The buzz: New Era MIT researchers say the invention of the steam engine began the most transformative social development in the last 3000 years. Fast-forward to today's paradigm shift – the convergence of technologies fueled by innovation accelerators like renewable energy, robotics, cognitive computing, Internet of Things. Is your organization prepared to thrive? The experts speak. Frank Diana, TCS: "We cannot solve our problems with the same thinking we used when we created them." (Albert Einstein) Thornton May, Futurist: "When it's steam engine time, people will invent steam engines...."

### Featured Guests

#### Frank Diana

Frank Diana is a Managing Partner and Futurist at Tata Consultancy Services, as well as a thought leader and frequent speaker. He has served in various C-Level roles throughout his career and has over 35 years of leadership experience. Currently at TCS, he is focused on a future shaped by changes in the societal, geopolitical, and economic landscape, and the associated implications for business. He blends a futurist perspective with a pragmatic, actionable approach gained through years of dealing with the practical realities of business. He scans multiple horizons with a strong ability to connect dots and identify future scenarios quickly and broadly.
