

Coffee Break with Game-Changers

with your host **Bonnie D. Graham**

Coffee Break with Game-Changers, presented by SAP
Wednesday at 8 AM Pacific/11 AM Eastern
March 04th 2015: Health Wearables – Just Hype or Revolutionary for Patients?

The buzz: Health. Wearables like wrist bands, watches, glasses, and contact lenses are the NBT. Why? They can now measure body conditions and use the data to support healthier living, disease prevention, and faster rehab. But will patients actively track and share wearables-generated data, despite privacy concerns? And are wearables precise enough to meet medical device quality standards? The experts speak. Lynne Dunbrack, IDC Health Insights: "...When the familiar pen-and-paper methods of self-analysis are enhanced by sensors that monitor our behavior automatically, the process of self-tr
