Joe Dispenza, D.C.

Joe Dispenza, D.C., first caught the public's eye as one of the scientists featured in the award-winning film What the BLEEP Do We Know!? Since that movie's release in 2004, his work has expanded, deepened, and spiraled in several key directions—all of which reflect his passion for exploring how people can use the latest findings from the fields of neuroscience and quantum physics to not only heal illness but also to enjoy a more fulfilled and happy life. As a researcher, Dr. Joe explores the science behind spontaneous remissions and how people heal themselves of chronic conditions and even terminal diseases. He's more recently begun partnering with other scientists to perform extensiv
